

As an attorney, I find this attempt to limit clear First Amendment rights abhorrent and disturbing. There seems to be a developing trend of the government becoming increasingly involved in the affairs of private enterprise. This is a DEMOCRACY we live in and bills like this one shouldn't be pushed thru Congress and the forced upon unsuspecting citizens. Leave radio alone and get off the bandwagon that was started after the Super Bowl. One day, we'll wake up and have two choices on radio: government or government. Scary!
